---

The Adult Education Department at Colby Community College is offering free classes beginning January 7, 2013. The classes will be held in the lower level of the H.F. Davis Library located on the Colby campus.

Participants will receive assistance to prepare for the General Education Development (GED) Kansas High School Diploma. An enrollment and orientation session at the beginning of the classes will assist students in goal setting and determining the best avenue for acquiring the needed skills.

The Adult Education Department also will provide an academic bridge for those enrolling in health care programs such as Certified Nurse Aide, Licensed Practical Nurse, Associate Degree Nurse, Dental Hygienist, Massage Therapist, Physical Therapist Assistant, Health Assistant Specialist, Medical Coder, EMT, Home Health Aide, Medication Aide, Restorative Aide and Nursing Home Personnel.

“The health care bridge courses focus on math and terminology essential for success,” said Director Nance Munderloh. “Subjects covered are unique to each individual and may include a combination of math, writing, reading, understanding and interpreting charts and graphs, and vocabulary. Reading for meaning, study skills, time management, personal organization, and computer-based testing are addressed to provide students with additional tools for success.”

Other services offered by the Adult Education Department include preparation for college or program entrance exams, post-secondary transitioning assistance, technology basics, financial literacy, employability, work skills and general life skills.

For more information or to enroll in day or evening classes beginning in January, call Munderloh at 460-4663
